

IF YOU DON'T HELP HIM, WHO WILL?

He's helped man get food, explore new lands, fight wars and keep the peace. He does everything he's asked, and all he wants in return is to be cared for – that's not too much to ask, is it?

Too often it is. And what a disgrace. He doesn't need much – a safe home, enough food, and affection. But just as some people shouldn't have kids, some shouldn't have horses.

Who will help him?

And that's where we step in.

LUV Shack Horse Ranch Rescue provides a safe, loving, environment in which abused and neglected horses can have their health and dignity restored. Running our operation takes two things: time and money. If you have either to spare, and would like to donate, please contact us. No amount is too small. Every donation makes a difference.
