Litter is scary

Keep Mandeville Beautiful

@ 2007 Gallinghouse & Associates Inc.

Keep your butt in your pants

Ask for a pocket ashtray.

Cigarette butts are ugly. But they're even uglier on the ground. A single butt takes up to five years to biodegrade. And because it is so lightweight, it can easily move, clogging ditches and polluting our waterways and lake. So do your part to *Keep Mandeville Beautiful*.

Ask the counter for a free pocket ashtray.
